

## A Message from our President

It's an exciting time for LEC, as we celebrate our 30th birthday this year, looking back at our legacy and looking forward to a future of continued growth and innovation. We should all be very proud of where we are today and excited about where we are headed.

As we enter into a new year and the Fourth Industrial Revolution continues to rapidly evolve, we want to express our renewed, unending commitment to providing the highest quality of IIoT enablement technology to those we serve. Through continued partner engagement, technical innovation and investment in the brightest human resources, we look forward to reaching the **NEXT LEVEL** in IIoT enablement in 2019.

We want to thank our clients for your continued trust and loyalty over the years. We also want to thank each member of our talented team and our partners for bringing your expertise, leadership, vision, knowledge and experience to the table as we forge our future. You are truly our greatest asset today and tomorrow, and we could not accomplish what we do without your support and leadership. My personal respect and thanks goes out to each of you.

Sincerely,

Harold Hogue  
President

Leaders in Industrial Automation
